## Hoover power scrub deluxe spinscrub 50 reviews

Activate and hold the button to confirm that you're human. Thank You! Try a different method Skip to content Last updated date: March 30, 2022 Why Trust DWYM? DWYM is your trusted product review source. Along with our in-house experts, our team analyzes thousands of product reviews from the most trusted websites. We then create one easy-to-understand review. Learn more. Look for the DWYM seal for products that are the best in the category. We looked at the top and dug through the reviews from some of the most popular review sites. Through this analysis, we've determined the best you should buy. We like that this carpet cleaner is lightweight and exceptionally easy to use. It uses powerful, 360-degree brushes and a dual V nozzle for even cleaning. Plus, it comes with tools for cleaning stairs, upholstery and hard-to-reach crevices. In our analysis of 62 expert reviews, the Hoover Lightweight Deep Carpet Cleaner placed 2nd when we looked at the top 21 products in the category. For the full ranking, see below. Help extend the life of your carpet with the Hoover Power Scrub Deluxe Carpet Cleaner. Designed to clean many carpeted and fabric surfaces in and around your home. Make cleaning a breeze with spill free tanks that are easy to access, easy to fill, empty and clean. The Power Scrub Deluxe features SpinScrub multiple brush system, a rinse option, automatic detergent mixing, a DualV Nozzle for more efficient cleaning and forced heated air for faster drying time. A number one best seller in its category, this carpet cleaner from Hoover wins the top award for its performance. Featuring a SpinScrub Brush System, it can clean the fibers of the carpet from all angles to get the most thorough wash. Using water and detergent first, the device then rinses the fibers with just water to remove any residue. Heated air is also released to help lift stains and dry the area quicker. And if you're working with stairs or hard-to-reach places, there's an eight foot hose and upholstery tool that can assist. Weighing in about 18 pounds, it's one of the lightest uprights available. Lightweight with 20-foot cord. Easy to use. Includes dual tanks, a rinse option, and hot air blowers for drying. Highs: Drying performance was very good. The Power Scrub Deluxe was easy to set up. There is no need to measure soap and water. Just fill the tank with each and the machine mixes it in the proper amounts for you. This machine is also easy to clean. It pulls apart in the spots that matter so you can empty and clean the tank, clean brushes, and refill with little effort In terms of critical reviews, some have reported water leaking from the bottom or parts breaking over time. Some incidents of leakage and breakage. Lows: Cleaning performance was fair. - Noise performance was fair for this model. It lacks any specific brushes for getting the edges when cleaning carpets. Despite our best efforts, carpet inevitably becomes stained. Kids and pets, as well as plain old accidents, can leave your carpet in desperate need of a thorough cleaning. And let's not forget the regular wear and tear of daily life. Even if you don't have a major carpet "emergency" on your hands, you'll still need to do a thorough deep cleaning periodically to rid your carpet of the everyday dirt and grime that accumulates. You may not even realize how dingy your carpet has become until it's been cleaned. The process can revitalize old carpet and make it look like new again. If you've been thinking about replacing your old grimy carpet, investing in a nice carpet cleaner may just change your mind and help you save some money. It's not just the improved appearance of your flooring that will inspire you. Certain types of messes can leave your carpet smelling less than fresh. Repeated pet accidents, in particular, can trap foul odors in your carpet that only vigorous machine cleaning can remove. Carpet cleaning is also the most effective way to destroy the allergens and bacteria that your carpet harbors. Clean carpet can lay the foundation for an equally clean and healthy household. Hiring a professional to clean your carpet is an option, but buying a machine to do it yourself can be the more cost-effective route in the long run. One factor that will determine how efficiently your device lifts embedded dirt is the size and power of the motor. For example, the BISSELL TurboClean Powerbrush Pet Carpet Cleaner has a four-row rotating power brush that makes it ideal for sucking up ground-in dirt. Another factor to consider in buying a carpet cleaner is the tanks. Separate tanks for water and the cleaning solution will make for quicker and easier refilling, and the smaller the tank, the more you'll have to stop to refill it. You should also consider how heavy and cumbersome the machine is and weigh that against your home's needs. If you need to bring it up and down several flights of stairs, for example, a lighter model. There are a few that weigh in at just over 3 pounds, which will make the job a lot easier. Some models also offer versatility, as they can easily switch between an upright cleaner and a portable spot cleaner for extra-tough spots and stains. Before the cleaning, you should conduct a quick pre-clean. Much like you wouldn't leave your dirty clothes lying around before letting a professional cleaning team in, you'll have to do a little legwork before you break out your carpet cleaning machine. First, vacuum your carpet as normal to pick up any surface debris. Think of it like sweeping your hard floors before you mop them. Next, you'll want to pre-treat any especially tough stains to give a little boost to the cleaner's power. You can use a commercial solution, or there are a number of surprising substances you probably already have that can do the trick, depending on the type of stain. For example, club soda is great for beer and wine stains while dishwashing detergent works well on grease stains. Make sure you move furniture out of the way before getting started. Some types of wood furniture can release dye into a wet carpet and stain it. The same goes for metal, which can leave rust stains. This will also make it much easier for you to keep track of where you've already vacuumed, as well as avoid stepping in areas you've just cleaned. Give your carpet plenty of time to dry. How long that takes depends on the carpet's thickness. Usually, it will take between four and six hours after cleaning before it's fully dry and safe to walk on again. When your carpet is dry, vacuum it again for a perfect finish. Your carpet cleaner can pull double duty in a lot of cases. It's not just your carpets that can be cleaned with the device. The Hoover Smartwash Automatic Carpet Cleaner comes equipped with an eight-foot, ready-to-use hose and upholstery tool that can be used on furniture, stairs and other hard-to-reach spaces. Don't wait until your carpet is downright filthy to clean it. Think of it like going to the dentist. If you keep up with regular cleanings, you'll get better results. With that in mind, prevention can be the best medicine. No matter how tidy you are, your carpet will eventually need a deep clean. But you can reduce the frequency and effort you put in by taking steps to keep your carpet in the best shape possible in between cleanings. Just like you should brush and floss regularly between dentist visits, use good doormats at the entrances to your home, and consider asking people to remove their shoes before entering your home (including your kids!). You may also consider investing in some large area rugs, depending on the space. Hoover's Power Scrub Deluxe FH50150 is an upright carpet cleaner that deep-cleans even the most stubborn stains, dirt, and grime from your carpet. It is easy to use and convenient carpet cleaning solution that every household with carpeted floors should use.Hoover's story began in 1908 in Ohio, United States when a gentleman called William Henry Hoover founded the company. Hoover wowed America with his brilliant vacuum cleaners and quickly branched his business out to the United Kingdom, where they became a big household name.In the 20th century, Hoover was such a big name that people called all vacuum cleaners 'Hoovers', regardless of their manufacturer. Hoover is still a big player in the cleaning appliances department in the United States and Europe.Fast forward to 2020, and Hoover has a massive portfolio of products, from white goods such as washing machines and dryers to vacuum cleaners, carpet cleaners, hard floor cleaners, and accessories. Hoover Europe is now owned by Haier and is just as popular today as it was 20 or 30 years ago.In this review, we will take a look at the Hoover Power Scrub Deluxe FH50150 Carpet Cleaner. We will pick apart its features, discover the pros and cons of the carpet cleaner, and recommend or discourage its use in our review summary. So, let's begin!A Deep Dive into The Hoover Power Scrub Deluxe FH50150 Carpet CleanerThe Hoover Power Scrub Deluxe FH50150 carpet cleaner has fast-drying and in-depth cleaning features. It lifts away embedded dirt and grime and even has a Spin Scrub accessory designed to banish pet mess and stubborn dirt.You can use the Power Scrub Deluxe FH50150 on multiple fabrics around your home, not just on carpet. Using the carpet cleaner to deep clean your couch is excellent and saves you from throwing a lot of money out on hiring expensive carpet cleaners.It is easy to get confused between the Power Scrub Deluxe and the Power Scrub Elite. On the face of it, they are both essentially the same carpet cleaner, just different sizes. However, when you look a little closer at their features, you will notice that the Elite is much bigger than the Deluxe and it has a much more full cleaning path.The similarities between the two models are that they are more or less the same weight (give or take a few pounds), both have 10 Amps power, a 360-degree Spin Brush System, and a Dual Water Tank System. So, as you can see, we understand if you get a little mixed up between the two!The Power Scrub Deluxe FH50150 is designed to be a relatively compact carpet cleaner that provides you with that deep-clean feeling after every use. Carpets are notoriously hard to clean and take a very long time to dry, even when you call in the professionals. Hoover wanted to allow busy households to clean their carpets thoroughly without taking the kids or pets out of the house for the whole day.Who's It For?The Power Deluxe FH50150 Carpet Cleaner is ideal for households with carpeted floors. Vacuuming alone does not remove deeply embedded dirt and grime, especially if you have a high pile carpet.Families with pets and small children need to take extra care with carpet floors. Food spillages, pet mess, and other dirt will start to smell if left unattended or is not removed properly. The only thing is, you never really know when something has been spilled because let's face it, is your toddler going to fess up?The Power Scrub Deluxe FH50150 gives its users the peace of mind that every spillage and mess is being cleaned up, even if you weren't aware of it. It is the perfect tool to use to deep clean couches, curtains, and other upholstery items too.Anyone that wants their carpet cleaned but doesn't want to deal with wet carpet that takes hours to dry would love the Power Scrub Deluxe FH50150. The carpet cleaner is not appropriate for anyone that struggles to lift and maneuver heavy cleaning equipment, as this model weighs roughly 19 pounds.See Related Article: Hoover Linx Cordless Stick reviewWhat We Like About Hoover Power Scrub Deluxe GH50150 Carpet CleanerThis carpet cleaner gets a big thumbs up for how well it rids the carpet of pet accidents. Yes, that is right, it is brilliant at getting pet poop and pee out of the carpet and leaves the carpet looking as good as new all thanks to its 360 degrees Spin Scrub Brush Technology.Bad smells are easy to remove using this cleaner. Carpets that are full of dirt and dust start to smell stuffy and old. No amount of vacuum cleaning or scented candles can get rid of this type of odor. The Power Deluxe FH50150 rids carpets of their stale smell and leaves them looking, feeling, and smelling as good as new.It is super easy to assemble out of the box. Simply fill up the tank with water and a cleaning solution, attach the handle, and you are good to go.The clean water is kept separate from the dirty water, which is excellent for several reasons. The dirty water is easy to empty once the tank is full, but more importantly, the carpet is cleaned by freshwater only. This means that the cleaning results are not compromised by cleaning with dirty water.You get some accessories with the carpet cleaner that are extremely useful. We especially liked the upholstery tool and the stair tool, although all accessories are brilliant and easy to attach.What We Don't Like About Hoover Power Scrub Deluxe GH50150 Carpet CleanerUnfortunately, the carpet cleaner leaks a lot. The leak doesn't stop when the carpet cleaner is turned off either, and you may need to empty the water after every use to avoid leaks damaging the carpet.The Power Scrub Deluxe does not heat the water up as it cleans. In order to get the best clean possible, you should add boiling or very hot water to the clean water tank and start cleaning immediately. Cleaning with cold or warm water will not get you the desired cleaning results, especially if you need to clean pet fluids or rid your carpet of bad smells.The bristles are vacuum powered, which means that you have to clean very slowly in order for the carpet cleaner to do its job correctly. If you try and rush the cleaning process, the brushes slow down and struggle with fast-paced cleaning.Although the Hoover Power Scrub Deluxe is marketed as an excellent carpet cleaning solution for households with families and pets, it doesn't work fast enough, and cleaning a big room would take a very long time.There is a safety feature that is less than convenient. This feature turns the carpet cleaner off as soon as the carpet texture changes, elevation level changes, or when the cleaner meets the edge of the stairs. On the face of it, this seems like a good feature, but in reality, it interrupts your cleaning flow.See Related Article: Hoover Floormate DeluxeGreat cleaning featuresEasy to assembleHeated forced air feature dries the carpet quicklyClean and dirty water are in separate tanksEasily removes pet mess!The repair or replacement process takes a long timeThe water tank leaks occasionally!What's Included?When you purchase the Hoover Power Scrub Deluxe FH50150, you will receive a few accessories to go with it. The carpet cleaner comes with a free sample bottle of cleaning solution, a crevice tool, an upholstery tool, a stair tool, and an 8-foot hose.The hose is ideal for cleaning hard to reach areas while the upholstery and crevice tool is great for cleaning car seats, couches, and other fabric items. You can keep all of the tools in the free mesh tool bag so that they don't go missing or get damaged.Overview Of FeaturesHoover's Power Scrub Deluxe FH50150 has many desired features. The Hoover carpet cleaner is designed with you in mind. Its goal is to make cleaning your carpets feel like less of a chore and to keep your home feeling comfortable and clean. Below is an overview of the Power Scrub Deluxe top features:SpinScrub Brush Technology Hoover designed a 360-degree brush that scrubs carpets from all angles. The SpinScrub brush is patent protected and unique to Hoover.DualV Nozzle There is nothing worse than taking the time out of your hectic schedule to clean, only to find that there are still dirty patches left on the carpet. The DualV nozzle has been designed to provide equal and robust suction for even cleaning abilities.Dual Tank Technology Clean and dirty water is kept separately. Not using dirty water to clean your carpet ensures that stains, dirt, and smells are stripped from the rug, leaving behind a fresh and clean carpet for you to enjoy.Quick Dry Technology What is worse than a dirty carpet? A wet one! Not only are wet carpets uncomfortable and unpleasant to walk on, if they take too long to dry, they can also make the room stuffy and damp. The carpet cleaners' Quick Dry technology pushes heated air onto the wet carpet to help it dry faster than natural air drying.Automatic Detergent Mixing System Finding the right ratio of detergent and water can sometimes feel like an unsolvable mathematical equation. Using too much detergent can leave a film on the carpet, whereas not using enough will lessen the cleaning results. The Automatic Detergent Mixing System calculates the ideal water to solution ration and does the mixing for you.Powerful Reach With a 20 foot cord, you are unlikely to need to keep unplugging and plugging the carpet cleaner. It is a great inconvenience trying to clean a room and having to play hide and seek to try to find an appropriate plug socket. Fortunately, that isn't an issue with the Power Scrub Deluxe FH50150 as 20 feet is more than enough for most rooms.Review SummaryOverall, we feel like the Hoover Power Scrub Deluxe FH50150 is a brilliant carpet cleaner. It is reliable, easy to use, low maintenance, and, most importantly, leaves your carpet looking spotless and smelling great after every clean.FAQ Below are a few frequently asked questions about the Hoover Power Scrub Deluxe FH50150:Q: Is this carpet cleaner suitable for pet owners? A: Absolutely, this is one of the best carpet cleaners for people with pets. Puppies and kittens are especially hard to train, and understandably they have accidents inside the house. This carpet cleaner eliminates any traces of puppy poop and leaves the carpet looking and feeling fresh.Q: Can the brush be shut off? A: Yes, the brush can be shut off by opening the flap on the dirty water tank. Bear in mind that the carpet cleaner will not pick up liquid when the flap is open.Q: Why do the brushes stop working? A: The gears and bearings begin to rust over time due to having a lot of contact and exposure to water. Because of this, the brush stops turning.Q: Can the Hoover Power Scrub Deluxe FH50150 pick up fur balls that have been thrown up by a cat? A: It is possible, however, not recommended. Cat fur balls are dense and could clog up the carpet cleaner over time.Q: Is cleaning carpets the same as cleaning rugs? A: Not really, however, when it comes to the Hoover Power Scrub Deluxe carpet cleaner, then carpets and rugs are very much the same. Use the carpet cleaner on high pile rugs that are not machine washable to freshen them up.We hope this review helped you, please let us know what you think about the Hoover Power Scrub Deluxe FH50150 carpet cleaner. We would like to hear about your experience with Hoover and whether you feel this carpet cleaner is worth trying.
